CAI

COMPRESSED AIR INTERNATIONAL

K Series Two-Stage Air Compressors

STANDARD FEATURES

KC11 Unit Includes:

- ✓ Totally enclosed, OSHA type steel belt guard
- ✓ Honda engine
- ✓ Engine low oil level shutdown
- ✓ Constant speed control with pneumatic unloader and engine slow-down
- ✓ ASME/CRN air receiver
- ✓ Loadless starting
- ✓ ASME safety relief valves
- ✓ Discharge air service valve

OPTIONS AVAILABLE

- ✓ Automatic Tank Drain
- ✓ Vibration pads
- ✓ Alternate engine & tank configurations

KC11G-60H

K Series units are assembled in Canada, in our own factory, using the best quality components available in North America. Therefore, we can provide the highest quality & the most cost effective cast iron Two-Stage Compressor in the market.

K Series gas drive models come with a horizontal tank and are driven by a Honda engine. Our models provide capacity levels between 20 and 93 acfm @ 100 psig.

We stand behind the workmanship of our product with a One-Year Warranty covering all components including the pump, motor and tank on all K Series air compressors.

KC5
Pump

SPECIFICATIONS

SPECS	HORIZONTAL TANK
UNIT MODEL	KC11G-60H
ENGINE	11 H.P. (Honda)
TANK SIZE	60 G
ACFM @100 psig (175 psig max.)	20
APPROX. WT. (lbs)	590
DIMENSIONS (LxWxH)	53 x 22 x 45

KC5 Pump Includes:

- ✓ Cast iron cylinders, heads and crankcase for long, dependable compressor life
- ✓ Ring Flo lubrication
- ✓ Swedish steel concentric type inlet and discharge valves for low maintenance & high efficiency
- ✓ High efficiency inter cooler with steel fins on copper tubes designed for maximum heat dissipation
- ✓ Cast iron connecting rods with replaceable automotive type insert bearings
- ✓ Oil sight gauge
- ✓ High volume, statically balanced flywheel/cooling fan for improved cooling air flow
- ✓ Cast iron crankshaft supported on both ends by oversized tapered roller bearings
- ✓ Head unloaders
- ✓ Centrifugal unloader
- ✓ Combination filter - silencer
